

## SUPERIOR FEATURES

# TaskCom1

## Reconfigurable Wired Headset System

- Easy field set-up
- Talk over 1000s of feet
- Accommodates up to 30 headsets
- Duplex telephone-like conversation
- Rugged professional quality components
- 3 user selectable channels on 4-pin cable
- Adapts to existing wiring and connections
- Use in place of voice (sound) powered systems
- Channel selector, mic switch, talk/battery indicator
- Low drain 9-volt alkaline battery powers headset for days

- Noisy areas
- Temporary installations
- Task oriented communications
- Pump/straying operations
- Film & video crews
- Corrugating machinery
- Crane rigging
- Printing plants
- Power plants
- Production lines
- Confined space entry
- Sandblasting & pumping
- Training & simulations
- Electrical construction
- Building emergency systems
- Plant maintenance
- Aircraft de-icing
- Construction
- Testing & calibration
- Road line painting

APPLICATIONS

**Task/Com1** is a unique reconfigurable wired headset intercom system designed for great flexibility in a wide range of applications, including noisy areas, task communications and temporary installations.

**Task/Com1** requires no central amplifier or power supply because the entire system, which is powered by each headset's battery, operates on three user selectable speech channels and uses standard 4-pin telephone extension cord with modular connectors. Adaptable to existing wiring, **Task/Com1** provides duplex telephone-like conversation over multiple thousand feet cable and handles many headsets over the same network.

**Comfortable to wear. Easy to set up. Simple to use.**

TaskCom1 Module

Cord Reel

Modular Cable

J-Boxes

### 4 KEY SYSTEM COMPONENTS

TC-1/20

TC-1/30

TC-1/40

TC-1/50

**THEN CHOOSE THE HEADSET STYLE TO SUIT YOUR APPLICATION**

*...plus many other uses!*

All **TaskCom1** components are built from professional grade materials to give you the most efficient, flexible, and sturdy communication tool at an affordable price.

# TaskCom1

## Reconfigurable Wired Headset System

**TC-1/20 Task/Com1 dual-sided lightweight intercom headset** with flex boom microphone, speaker mode switch for sound on one or both ears, replaceable oversized ear cushions, 5 oz. **\$229**

**TC-1/20HH**, same as TC-1/20 with hard hat modification with strap and buckle at 90 degrees from headband **\$244**

**TC-1/30 Task/Com1 dual hearing protection CobaltAV "blue" muff headset**, overhead support version, 24 dB NRR, 18 oz. **\$329**

**TC-1/40 Task/Com1 hard hat compatible**, dual hearing protection CobaltAV "blue" muff headset, behind head support version, 24 dB NRR, 18 oz. **\$339**

**TC-1/50 Task/Com1 dual hearing protection CobaltAV "blue" muff headset**, overhead support version, 24 dB NRR, 18 oz. **\$289**

**TC-1/60 Task/Com1 hard hat slot mount**, dual hearing protection CobaltAV "blue" muff headset, 24 dB NRR, 18 oz., mounts to side slots, ear cups can be rotated to side when not in use **\$349**

**TC-1/70 Task/Com1 hard hat compatible, dual side vented** CobaltAV "blue" muff headset, behind head support version, 18 oz., one ear cup has vents and no speaker which allows user to hear ambient noise **\$324**

**COBRA-E Cobra super noise canceling mic** which may be optioned with any Task/Com1 headset except TC-1/20 headset. Greatly reduces background noise while Maybe be installed on new headset or purchased for field retrofit. **\$149**

**CC-1 Hard shell plastic carrying case**, easily holds 2-4 muff headsets **\$29**

**1600B Hard shell plastic carry case**, customizable foam insert, easily holds 8-12 muff headsets **\$199**

**CM-2 Inline RJ-11 coupler**, modular jack-to-jack **\$2**

**J-BOX Junction box**, 4 RJ-11 jacks, plastic housing, connects Task/Com1 headsets and other J-BOXs **\$6**

**CR-1 Retractable cord reel**, hand crank with 25 ft extension cord with RJ-11 plug **\$19**

**KC-1 Cable repair kit**, includes 1000 ft flat phone cord, 100 RJ-11 modular plugs, metal modular crimp tool **\$114**

**RC-XX RJ-11 modular extension cable**, cut to length, flat phone cord. Replace XX with length in feet, minimum charge \$20 **\$1/ft**

**MC-XX Modular terminated extension cables** using high quality round flexible mic cable, replace XX with length in feet, minimum charge \$40 **\$2/ft**

**SC-XX Adapter cord** for single channel sound powered systems with C-11 1/4" phone to RJ-11 using high quality round flexible mic cable, replace XX with length in feet, minimum charge \$40 **\$2/ft**

**TC-7 Cable ringer adapter**, modular phone cord to alligator clips **\$15**

**BT-1 Battery tester** **\$20**

**SG-2 Stop gap eyeglass adapters**, pair. Foam pads which improve comfort and hearing protection when wearing eyeglasses including eye protection glasses while wearing muff headsets **\$5**

**ECC-2 Replacement washable cloth ear covers** for all headsets except TC-1/20 **\$4/pr**

**WSM-1 Replacement microphone foam windscreen** with o-ring for all headsets except TC-1/20 **\$2**

**ES2 Replacement foam ear seals** for all headsets except TC-1/20 **\$12/pr**

**HSV Replacement adjustable velcro overhead support strap** for TC-1/40 and TC-1/70 headsets **\$12**

**SMA Replacement hard hat slot mount headset attachment** assembly for use with TC-1/60 headsets **\$12**

**M70 Replacement microphone cartridge** for all headsets except TC-1/20 **\$25**

**WSL-1 Replacement microphone foam windscreen w/ o-ring** for TC-1/20 headsets **\$2**

**WPL-2 Replacement cloth covered foam ear pads** for TC-1/20 headsets, pair **\$6**

All Task/Com1 intercom headsets feature noise canceling electret flex boom mics with replaceable foam wind screens and volume control. The green belt clip mounted Task/Com1 amplifier belt pack module has a 3-channel selector switch, push-to-talk button with locking microphone-ON switch cover, battery/talk indicator light, 9 volt alkaline battery, RJ-11 modular jack and a 12 foot flat extension cord with modular connector and a CM-2 in-line coupler. One year warranty.
